

**PROBATE COURT OF BUTLER COUNTY, OHIO**  
**JOHN M. HOLCOMB, JUDGE**

IN THE MATTER OF \_\_\_\_\_

CASE NO. \_\_\_\_\_

**PROPOSED DISTRIBUTION IN AN APPLICATION TO RELIEVE  
ESTATE FROM ADMINISTRATION WHERE ASSETS ARE  
INSUFFICIENT TO PAY CREDITORS IN FULL**

[R.C. 2113.03 and 2117.25]

[For use in applications to relieve an estate only]

The estate, as reported on Form 5.1 is recapitulated as follows:

Total Assets \$ \_\_\_\_\_

Total Liabilities \$ \_\_\_\_\_

Proposed Distribution (list creditors by class in ascending order):

| Creditor<br>(list name as it appears on Form 5.1) | Class | Total Debt<br>Owed: | Proposed<br>Payment |
|---------------------------------------------------|-------|---------------------|---------------------|
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
|                                                   |       |                     |                     |
